

SOLVENE 222

A SAFETY SOLVENT FOR CLEANING ELECTRICAL PARTS

PRODUCT USE:

SOLVENE 222 is used for degreasing and cleaning of electrical motors, switch gear, generators and other soiled electrical parts. It can be used for cleaning of release agents used for dental, tyre and other molds. It can be utilized in any standard film cleaning equipment and is an excellent cleaner for equipment used in manufacture of compressed gases and for gas cylinders.

ADVANTAGES:

- Fast dissolving action on oils, greases, waxes and tars.
- Has no flash or fire point.
- Cold cleaning – no heating or rinsing required – flash dries.
- Rapid drying rate – no residue left
- Used in ultrasonic cleaning units – improved cavitation ability

PRODUCT DESCRIPTION:

Appearance: Clear liquid
S.G.: 1.48 – 1.50

DIRECTIONS FOR USE:

Use undiluted. May be applied by immersion, spraying, brushing or wiping. Ultrasonic or vapor cleaning.

Allow adequate time for **SOLVENE 222** to penetrate and remove all soil. Either wipe dry, blow off with compressed air or permit to dry air. No rinsing required

Please note: Prolonged immersion is not recommended as there is a possibility of softening insulation varnish and coating.

Ref. No. 02/24

PRECAUTIONS:

- Keep out of reach of children.
- Use in well-ventilated environment.
- When handling product, wear safety gloves, apron, goggles or face shield
- Do NOT ingest.
- Do not re-use containers.
- Flammable / Fire Hazard

FIRST AID:

Eyes: Immediately flush eyes with plenty of cool running water for at least 15 minutes. Get medical attention.

Internal: If swallowed, immediately drink a large quantity of water. Do not induce vomiting. Get medical attention.

Every endeavour has been made to ensure that the information in this Data Sheet is reliable, but we do not accept any liability for any loss, injury or damage which may result from its use.
